

Costs Only Pennies per Animal

1 Gal Treats up to 120,000 Gallons of Manure

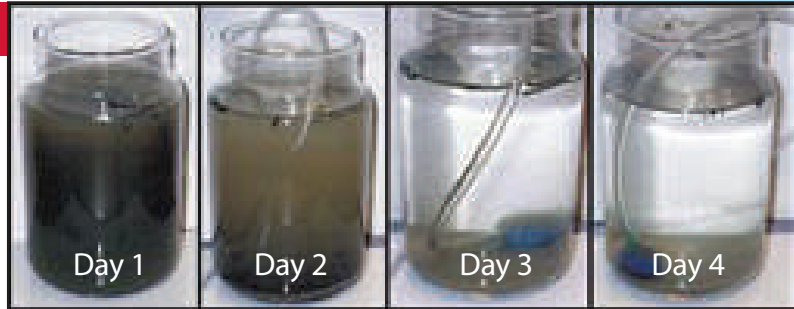

Works Perfectly with our LP Manure Pro-biotic Blend

- Efficient & Economical
- Fast & Potent
- Eliminates Noxious Odors
- Twice as Strong as Septi-Sol
- Reduces Solids
- Ends Frequent Lagoon Clean-out

IT REALLY WORKS!

In the test on the right oxygen was mechanically pumped into the jars. OpenAll® LP Manure Treatment can work in pits and lagoons by itself, but, mechanical aeration accelerates the degradation of solids

OpenAll® LP Manure Treatment is HIGHLY CONCENTRATED. The solution becomes activated and ready to use when mixed with water. Treat the application area according to the following table.

Level of Solids	Gallons of OpenAll® LP Manure Treatment	Gallons of Manure
Heavy	1 Gallon	40,000
Moderate	1 Gallon	80,000
Light	1 Gallon	120,000

Safe for the Environment

Safe for the Environment

1 lbs Treats
up to 60,000 gallons
of manure

For faster results, Product works best with conjunction of OpenAll® LP Manure Treatment

- Enhance organic removal efficiency of biological systems, lowering effluent BOD, COD, and TSS.
- Enhance solids settling where it has been disturbed by loading fluctuations.
- Accelerate the start-up of new systems and aids recovery after upsets.
- Improve cold weather operation.
- Reduce sludge build-up.
- Cost effective and sustainable results.
- Easy to apply and works fast and effectively.
- Eliminates noxious odors.
- Reduces nitrates and phosphates.
- Non-toxic, non-hazardous & non-genetically manipulated.

OpenAll® Manure Treatment

Pro-biotic blend is a dry powder product that contains a specially formulated range of adapted high performance micro-organisms, natural catalysts and enzymes. This product was developed to increase the degradation efficiency and lower agitation and pump out costs. The range of microorganisms selected are chosen for their degradation abilities under both aerobic and anaerobic conditions. To ensure optimal performance of these organisms under the toughest conditions, they are blended together with “high potency” nutrients and stimulants.

OpenAll® Pro-biotic Manure Treatment is HIGHLY CONCENTRATED. The solution becomes activated and ready to use when mixed with water. Treat the application area according to the following table.

Level of Solids	OpenAll® Pro-biotic Manure Treatment	Gallons of Manure
Heavy	1 lbs.	20,000
Moderate	1 lbs.	40,000
Light	1 lbs.	60,000
