

Safe for the Environment

1 Gallon Treats up to 120,000 Gallons of Manure

- Efficient & Economical
- Fast & Potent
- Reduces Noxious Odors
- Reduces Solids
- Ends Frequent Lagoon Clean-out
- Up to 500% boost in Available Oxygen.

OpenAll® MTA is HIGHLY CONCENTRATED. The solution becomes activated and ready to use when mixed with water. Treat the application area according to the following table:

Level of Solids	Gallons of OpenAll® MTA	Gallons of Manure
Heavy	1 Gallon	40,000
Moderate	1 Gallon	80,000
Light	1 Gallon	120,000

Manufactured by:  
**Deutrel Industries**  
[www.deutrel.com](http://www.deutrel.com)

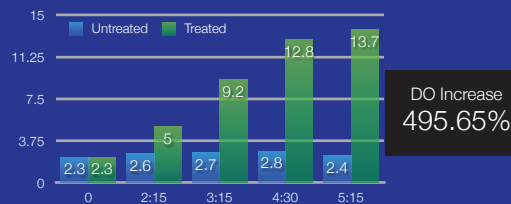

Plant Sourced: 78 minerals, 34 enzymes, 17 amino acids

OpenAll® MTA is a proprietary formulation; which supplies all the necessary minerals, enzymes and amino acids for better microbial and chemical breakdown of manure in pits, lagoons and holding tanks.

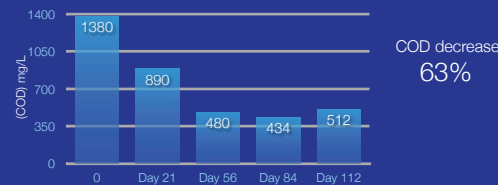

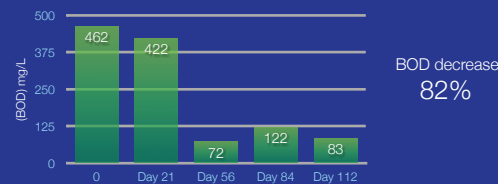

Test Studies Using OpenAll®: (DO)

Iowa State University (DO levels): 1 gallon / 20,000 gallons manure

Test Studies Using OpenAll®: (BOD/COD)

China: 1,300 Head Hog Building (1L per day for 112 days)
