Water Oxygen Supplement

Fast & Easy to Use

Efficient & Economical

- Increases available Oxygen
- Reduces algae growth
- Converts Nitrates into:
 - Single cell protein
 - Enzymes
 - Free amino acids
 - Polypeptides
- Increases dissolved oxygen (DO) by as much as 500%
- Safe for all aquatic wildlife

OpenAll® water oxygen supplement will improve the conditions in any pond or raceway. It provides the environmental conditions necessary to enhance and accelerate the natural process, aiding the laws of nature.

The beneficial effects from every OpenAll® water oxygen supplement treatment begin immediately, with bacterial activity increasing tremendously. Although many other benefits are derived from its use, the primary and most important function is the action of altering or weakening the dipolar bonds of oxygen and hydrogen. This alteration results in an improved re-oxygenation rate.
